BALANCED 2012-2014 BUDGET GOES TO FULL BOARD FOR VOTE

The Oakland Board of Commissioners' Finance Committee has completed hearings into the 2012-2014 county budget presented by County Executive L. Brooks Patterson in July. General Fund spending will rise to \$412 million in 2012, up from \$410 million in 2011. The revised, recommended budget is balanced for the next three years – the only triennial government budget in the country.

County Commissioners and the County Executive credit advanced, well-designed, in-depth budget planning with adjustments for declining revenues and cooperation of all departments as being instrumental in maintaining the county's AAA bond rating, even as property tax revenues continue to decline.

The county avoided cutting employee salaries and mass layoffs. There are no raises or hiring, and every time someone leaves county employment the position remains vacant. There have been only ten involuntary layoffs since 2008. View the budget here: http://www.oakgov.com/mgtbud/info_pub/triennial_budget.html

The Oakland County Commission's Finance Committee concluded budget hearings in August, and the whole Board is slated to vote on the Finance Committee's recommendations in September. No tax increases are included. The Board of Commissioners has lowered, but has never raised property taxes since it was created to succeed the County Board of Supervisors almost a half-century ago.

OAKLAND COUNTY AIRPORT GOES GREEN

On August 23, 2011, Oakland County unveiled the first green terminal in Michigan at the Oakland County International Airport. This \$7.5 million state-of-the-art terminal includes energy-saving LED fluorescent lighting and fixtures, advanced insulation including solar panels, geothermal heating and cooling, wind and solar energy, and an electric car charging station.

A living wall featuring spider plants, orchids, ferns and other plants is showcased as part of the grand design and enhance the 15,000 square-foot facility's air quality. Rainwater from the airport's roof will be recycled in the new rain garden.

The LEED (Leadership in Energy and Environmental Design) certified building is estimated to save Oakland County 15% in annual energy costs. The new terminal was financed by federal grants and airport user fees. The investment will ensure that the nation's 6th busiest general aviation airport will continue to aid in the economic growth of the region.

Jim Nash at New Oakland County Airport Dedication

Several Oakland County Commissioners were among those attending the dedication ceremonies of the improved airport, and are seen here in front of one of the more interesting sights at the improved airport -- the Living Wall -- which features several species of live and growing plants.

Pictured from left to right are Commissioners Jim Runestad, Bob Hoffman, Phil Weipert, Shelley Goodman Taub, John Scott, Vice Chairman Jeff Matis, Jim Nash and Helaine Zack.
